TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants in the town of New Durham, in the county of Strafford, in said state, qualified to vote in town affairs.

You are hereby notified to meet at the town hall in said New Durham, on Tuesday, the tenth day of March, next, at ten of the clock in the forenoon, to act upon the following subjects:

Article 1. To see if the town will vote to authorize the selectmen to hire money on the credit of the town to pay its just debts.

Article 2. To see if the town will vote to authorize the selectmen to administer or dispose of any real estate acquired by the town through tax collector's deed.

Article 3. To see what per cent discount the town will vote to allow on property taxes, and on what dates such discounts shall be allowed.

Article 4. To see if the town will vote to raise and appropriate the sum of \$200.00 for control of White Pine Blister Rust.

Article 5. To see if the town will vote to adopt the provisions of the Municipal Budget Act.

Article 6. To see if the town will vote to accept the Budget Estimates as recommended by the selectmen.

Article 7. To see if the town will vote to accept state aid for construction of Class II road known as the Merrymeeting road, and raise and appropriate for said purpose the sum of \$586.50, the state to give \$1.172.00; or will accept state aid for construction of Class V roads, and raise and appropriate for said purpose the sum of \$554.74, the state to give \$2,218.96.

Article 8. To see if the town will vote to authorize the selectmen to issue serial notes in place of our outstanding long term notes.

Article 9. To see what action the town wishes to take regarding the purchase of any snow or road equipment, and raise and appropriate money for the same.

Article 10. To see if the town wishes to make available town funds to secure any new projects under the W. P. A.

Article 11. To see what amount the town wishes to pay per day for trucks on highway.

Article 12. To choose all necessary town officers for the year ensuing.

Given under our hands and seal, this 24th day of February, in the year of our Lord nineteen hundred and thirty-six.

LEWIS A. WENTWORTH,
WILLIAM SMITH,
GROVER C. HAYES,
Selectmen of New Durham.

A true copy of warrant—attest:

LEWIS A. WENTWORTH,
WILLIAM SMITH,
GROVER C. HAYES,
Selectmen of New Durham.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the school district in the town of New Durham qualified to vote in district affairs:
You are hereby notified to meet at the town hall in said district on the seventh day of March, 1936, at two o'clock in the afternoon, to act upon the following subjects.

Article 1. To choose a moderator for the coming year.

Article 2. To choose a clerk for the ensuing year.

Article 3. To choose a member of the school board for the ensuing three years.

Article 4. To choose a treasurer for the ensuing year.

Article 5. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officers or agents of the district.

Article 6. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

Article 7. To choose agents, auditors and committees in relation to any subject embraced in this warrant.

Article 8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district as determined by the school board in its annual report.

Article 9. To see if the district will vote to raise and appropriate the sum of \$50.00 for hot lunches for the school year 1936-37.

Article 10. To transact any other business that may legally come before said meeting.

Given under our hands at said New Durham this 28th day of January 1936.

MABEL F. BERRY,
MARY A. BERRY,
BESSIE A. WILLETT,

School Board.

A true copy of warrant—attest:

MABEL F. BERRY,
MARY A. BERRY,
BESSIE A. WILLETT,

School Board.

MABEL F. BERRY,

MARY A. BERRY,

BESSIE A. WILLETT,

New Durham, N. H., February 8, 1936 School Board.

SUPERINTENDENT'S REPORT

To the New Durham School Board and Citizens:

Respectfully submitted herewith is my second annual report as superintendent of the New Durham schools. It is the purpose of this report (1) to give a brief summary of the condition and progress of the schools during the past school year using such statistics as are thought to be of importance, and (2) to call attention to the most important needs of the schools with such recommendations as to the meeting of those needs as seem proper at this time.

TEACHERS

At the close of the year Miss Hounsell withdrew and accepted a position elsewhere and Beulah M. Tasker of Barnstead was engaged to fill the vacancy. The following list gives pertinent information regarding the teaching force:

Emma J. Fuhrman	Ridge, Grades 1-8	\$900.00	21
Beulah M. Tasker	Plains, Principal, Grades 5-8	950.00	17
Elizabeth M. Parker	Plains, Grades 1-4	900.00	18
			56

INSTRUCTION

One of the great difficulties met by children in taking up a new subject in school has been more definitely isolated in the past few years than formerly. Educators are coming to realize that many children have trouble with a new subject solely because of their inability to read understandingly in that subject. Pupils have been called slow in arithmetic when their fundamental weakness was not in arithmetic but in reading.

They have not had the opportunity to acquire the necessary arithmetical vocabulary nor have they been properly trained in the simple but fundamental arithmetical concepts. The same is true with other subjects. In order to help solve this problem a plan has been initiated to provide, in the primary grades, reading practice with the vocabulary so chosen that children will be led gradually into an understanding of the words and terms necessary for satisfactory progress in the various subjects. In addition to the usual literary vocabulary of *hen, apple, jump, and run*, the child needs to have experience with such arithmetical concepts as *large, smaller, nearest, higher, and tallest*; such social concepts as *town, work, family, money and helpers*; such science concepts as *warm, change, tracks, cloudy, roots and buds*; such health concepts as *soap, towel, rinse, tub, handkerchief and skin*, and such art concepts as *tan, match, color, straight, space, print, shape and beauty*. In order to better meet these various vocabulary and conceptual needs in the primary grades, extension readers in arithmetic were adopted last year for use in the first three grades and this year in health in the first two grades. During the next year further progress should be made in this direction, extending the reading experiences into other subjects and other grades.

The series of arithmetic textbooks adopted in part last year is now in use in the first five grades and the few sixth grade pupils are using arithmetics borrowed from Alton, while new junior high school mathematics textbooks were purchased this fall for the seventh and eighth grades. By getting new books for the sixth grade next year all pupils in all grades will be supplied with suitable textbooks in arithmetic.

The language and composition work is well organized this year in all grades with workbooks in grades two to six and textbooks in grades seven to eight.

New spelling books have been supplied this year to all pupils from second grade up and literature books have been adopted for grades five through eight.

Some music books were bought last year and the set was completed this year.

The social science books mentioned last year as being needed for grades seven and eight were obtained this year.

The chief textbook needs now, besides the extension readers in the lower grades, are for health books in grades four to eight, science texts in grades one to eight, and geographies in grades three and four. The budget for next year as drawn up makes provision for all of these.

PROMOTIONS TO HIGH SCHOOL

The following seven pupils received certificates of admission to high school in June: Christina Berry, Natalie Berry, John Chase, Albert Corson, Barbara Jones, Malvenia Krisiak, and Irving Smith.

Five of these pupils entered high school last fall.

HIGH SCHOOL PUPILS

Eight New Durham pupils, as compared with fifteen last year, were enrolled in high schools last fall as follows:

Alton High School: Christina Berry, Natalie Berry, John Chase, and Mabel Wentworth.

Farmington High School: James Fuhrman and Winfred Viele.

Rochester Hight School: Albert Corson and Barbara Jones.

As one pupil has already left, two are seniors and there are now six enrolled in the eighth grade, it is likely that about nine will be in high school next year for whose tuitions about \$675.00 will be needed.

ROLL OF HONOR FOR ATTENDANCE

The following eight pupils, as compared with five for 1934-35 and three for 1933-34, were neither absent

nor tardy for the school year ending June 30, 1935:

(2) George E. Bickford, John Dodge, John Hayes, George Laney, Fayette Scofield, Geraldine Scofield, Albert Thurston, and Clarence York.

A figure before a pupil's name denotes the number of consecutive years he has had perfect attendance.

STATISTICS FOR THE YEAR ENDING JUNE 30, 1935

Number of pupils registered	80
Average number of half days schools were in session *(354.39)	340.66
Average membership	68.91
Average attendance	65.97
Aggregate number of half days all pupils were in school	22,477
Per cent of attendance (94.66)	95.72
Average number of half days each pupils was in school (335.46)	326.08
Pupils not absent nor tardy	8
Cases of tardiness	51
Average number of tardinesses per pupil (0.9)	.74
Non-resident pupils	0
Pupils transported at district expense	18
Visits by superintendent	47
Average number of visits by superintendent per teacher	15.67
Visits by citizens	81
Visits by school board members	19
Meetings of school board	12
Number of pupils promoted	57
Number not promoted	7
Per cent not promoted (6.73)	10.93

*Figures in parentheses are state averages.

Some of these figures deserve special comment as compared with those of the previous year: (1) The increase in the number of pupils in the New Durham schools of about 10 per cent, (2) the increase of over three thousand in the aggregate number of half days all

pupils were in school, (3) the increase of 3.72 in the per cent of attendance, and (4) a slight increase in an already theoretically too high non-promotion record.

The increase in the number of pupils in school, the increase in the number of days schools were in session, and the improvement in regularity of attendance all taken together mean that New Durham schools provided last year as compared with the previous year 13.2 per cent more educational opportunity: the equivalent of over one hundred fifteen days in school for one pupil, or three weeks of schooling for one hundred pupils. The high rate of non-promotions was due to an effort to place the pupils where they could do their best work. A child, as well as an adult, soon gets discouraged trying to do something he is not capable of doing and will not try. A high percentage of the New Durham pupils were found by careful testing and observation to be too far below standard to do the work of the grade they were in. The ability to read understandingly probably determines to a greater extent than any other single factor the progress a child makes in school. The results of the standard reading tests given last June to all pupils will be of interest. The first grade was the only grade that was up to standard. It read as well as the average first grade who had had a month or more of training. The second grade did fairly well as they read as well as the average second grade did a month earlier and all did better than first graders were expected to do. The third grade read only slightly better than the second grade did and was nine months behind standard, with four pupils reading only as well as the first graders should. The fourth grade did fairly well also as it was only one month behind the standard fourth grade. The fifth grade was four months behind, two of the four reading well. The sixth grade read with exactly the same understanding as the average fifth grade does with only one reading up to standard. The seventh grade as a grade was sixteen

months behind and read only as well as the average sixth grade reads earlier in the year, and it had only two members who were up to standard. I think it can be seen easily that it would have been unwise to promote several of these children. A seventh grade pupil who cannot read as well as a fourth grade pupil is expected to have serious difficulty trying to understand seventh grade arithmetic problems or the interpretation of historical facts as found in the usual seventh grade history textbook. The study of the test results shows also that on an average the pupils in the Ridge school read slightly better than the standard while those in the Plains school were on an average five and one-half months behind in reading although those who began to learn to read under the present system and teacher were well up to grade. It probably will take some time yet to straighten out these conditions with reasonable satisfaction.

CENSUS SEPTEMBER 30, 1935

Number of resident children 5 to 16 in local schools	59
Number 5 to 16 in high school outside the district	7
Number 5 to 16 in elementary school outside the district	0
Total number 5 to 16 in some school	66
Number 5 to 8 not in school	12
Number 8 to 14 not in school	0
Number 14 to 16 not in school	6
Total number of children 5 to 16 not in some school	18
Total number of resident children 5 to 16	84
This total is less by five than that of last year.	

BUILDINGS AND EQUIPMENT

New Durham can well be proud of the improvements made during the past summer on the Ridge school-house. This building was thoroughly remodeled to meet recognized standards. The lighting of the classroom is

now excellent, the toilets are sanitary, and the classroom and cloakroom are spacious and neat. Although the exterior is not impressive in appearance, the interior is very attractive. Perhaps the most pleasing fact to some about the improvement made is that the whole job of remodeling was done and paid for without the special appropriation of a cent. A needed repair that has forced itself upon our attention continuously lately is at the Plains school where the old chemical toilet tanks have gone to pieces from rust. These toilets cannot be used another year and there is doubt about their lasting until summer. The budget has been prepared with this need in mind.

CLERICAL WORK

The following record showing the number of pieces of first and second-class mail sent out from the superintendent's office for each month of the past school year, not including the summer, gives some idea of one phase of the superintendent's work. Considerable time is employed in taking care of the necessary correspondence and in preparing circular letters to teachers thereby aiming toward the improvement of their services. As the superintendent tries to be in the classroom as much as possible observing teachers' work and conferring with them on their problems, much of the clerical work has to be done evenings.

Month	Class of Mail	
	First	Second
September	217	75
October	179	72
November	126	141
December	99	7
January	108	66
February	71	11
March	134	43
April	226	294
May	175	24
June	159	23
Total	1,494	756

CONCLUSION

The accompanying report of the school nurse is commended to your attention.

In closing this report I wish to express my appreciation of the very fine work the P. T. A. at the Plains has been doing the past year and a half in making possible the correction of so many health defects. Few if any communities in the state can boast of more effective co-operation.

I appreciate also the cooperation accorded me personally by school board, parents, teachers, and pupils.

Respectfully submitted,

LESTER B. BADGER,

Pittsfield, N. H.

Superintendent of Schools

February 20, 1936

Supervisory Union No. 49

REPORT OF SCHOOL HEALTH WORK

To the Townspeople, School Board and Superintendent of Schools:

The general health of the school children of New Durham has been excellent in spite of the fact that low incomes have prevented many families from having more than the bare necessities of living. There have been no epidemics, or any cases of serious illness. The general resistance of the children against disease has been well kept up.

With the help of federal funds granted for the correction of defects in rural towns last year, and with the cooperation of the New Durham Parent Teacher's Association, eye and dental clinics were held, with 12 children fitted to glasses and 23 children in the first four grades of the Plains school treated for dental defects. The dental clinics will be continued this year if the Parent Teacher's whist parties are successful and will per-

mit it. The continuance of this work will put many children into excellent physical condition.

Following will be found a statistical report of the health work accomplished in the New Durham schools last year:

Visits to schools	68
Visits to homes	272
Total visits	340
Days spent	26.8
Days due	16
Pupils examined	69
Defects found	113—1.7 per pupil
Defects corrected	40—35% of defects
Without defect	23—33% of pupils

It is hoped that some tonsil clinic work can be organized in June so that some of the worst throats may be put in good shape.

Last winter it was necessary to get clothing for many children so that they might attend school. The needs are not as great this year.

At this time I wish to thank parents and teachers of New Durham for the hearty cooperation and the interest they have taken in the School Health Program.

Respectfully submitted,

RUTH S. LANGILLE, R. N.
